OUR CLASS GUIDE

		BEST RESULTS			
		FITNESS	STRENGTH AND TONE	WEIGHT-LOSS	WELLNESS
BATTLE GROUND	Using the latest fitness technology, and scientifically proven progressive programming, Battleground produces serious results. Our best personal trainers will teach you the finer details of movement technique and help you to achieve serious goals. You will move through Battleground phases making noticeable changes in strength, fitness, and body composition. Battleground is backed with the highest levels of support and accountability from your coaches. Bookings are essential for this class.				
BODYCOMBAT	A high energy class that fuses moves from boxing, muay thai, karate and other martial arts. Emphasising control and technique, the bodyweight athletic combinations will challenge and shape your body. No equipment necessary, and options for both low and high impact movements are given in every class.				
BODYPUMP	A non-impact class designed to give your body a complete workout using barbells and light weights. You will burn calories and improve strength.				
LES MILLS SPRINT	Sprint is a workout built on the science of HIIT — high intensity interval training. Using a stationary bike, it’s a quick and intense style of training that returns rapid results with minimal joint impact.				
SUPER SENIORS	Specially designed for the over-55s to safely maintain fitness, strength, and flexibility. Suitable for both veteran gym goers and new comers.				
	A flowing and meditative class for healing and restoring balance within the body, mind, and spirit. Improve muscle tone, flexibility, strength, and stamina.				
CLUB FIESTA	Club Fiesta is a fitness and exercise program disguised as fun. A blend of simplified dance moves and traditional fitness exercises, Club Fiesta will have you smiling while you sweat. Each routine has high and low impact options which allow everyone to participate regardless of fitness level.				
RISE DANCE FIT	A blend of Latin and International dance routines that creates a dynamic, exciting, and fun workout. A blend of fast and slow rhythms, and low and high intensity options, mean this class is suitable for all.				
HIITCIRCUIT PLUS	HIITCircuit Plus is a HIIT-based workout designed to improve strength and cardiovascular fitness, and build lean muscle. This workout uses a barbell, weight plates, a step, bodyweight, and motivating music to hit all major muscle groups. We round this workout out with the addition of targeted isolation exercises guaranteed to work your core and postural muscles.
